AWARDS & RECOGNITION

- Top 1% performer company-wide — bespoke performance bonus
- 2x Quarterly & 5x Monthly Award Winner, Careers360
- Scaled retail business from 2 to 7 stores via tech-led transformation
- Reduced IT operating cost by 60% while expanding digital footprint

PROFILE SUMMARY

Product & Digital Transformation leader with 10+ years of experience building and scaling AI-led, enterprise-grade platforms across CRM, ERP, E-Commerce and RetailTech. Proven record of driving Agentic AI, GenAI/LLM and predictive-analytics-led product strategy from 0-to-1 through scale, alongside process automation and RPA-driven efficiency programmes. Skilled at owning product strategy, roadmap and P&L-linked outcomes, leading cross-functional product, engineering, QA, infra and support teams, and partnering with CXOs and vendors on data-driven decision making. Delivered ₹13 Cr+ in direct savings, scaled platforms to millions of users, and enabled enterprise-wide digital and AI transformation across Sales, Retail and EdTech — now targeting Director / Principal Product Manager / AVP Product mandates with product-led organisations.

CAREER TIMELINE

Jan'16–Sep'22 Careers360	Sep'22–Sep'25 HippoHomes (Dalmia Bharat)	Oct'25–Present Dalmia Bharat Limited
-----------------------------	---	---

PROFESSIONAL EXPERIENCE

Assistant General Manager – AI-Product & Digital Transformation

Dalmia Bharat Limited

Oct 2025 – Present

- Own end-to-end product and digital transformation roadmaps across Sales, Technical Services, HR, Legal, CRM, travel, onboarding, manpower and enterprise workflows.
- Lead 20+ enterprise applications with deep integration across Oracle HRMS, SAP, CRM, data warehouse, travel systems and business workflows.
- Built a Tech Van Engineer application to manage PJP planning, lead creation, site visits and optimisation of a ₹10 Cr business budget.
- Implemented an MMT-integrated travel and expense management platform, delivering ₹8 Cr+ savings through GST compliance, policy control and booking automation.
- Designed a manpower management system linked with PO flow, enabling accurate plant-entry tracking and ₹5 Cr absolute savings.
- Built a simplified influencer onboarding flow that contributes nearly 20% of company revenue stream.
- Built a next-generation CRM platform across sales, service, ordering and data warehouse, improving customer satisfaction by 30% and reducing post-sales issues.
- Partnered with business CXOs, plant teams, vendors and technology partners to define AI/automation-led product strategy, workflows, integrations and adoption plans.

General Manager – Head of Product & Technology

HippoHomes – Dalmia Bharat Enterprise

Sep 2022 – Sep 2025

Previously: Senior Product Manager

- Led product, technology, QA, infrastructure and support teams of 12 for full-stack e-commerce, retail technology and enterprise platform delivery.
- Owned the digital product roadmap across website, mobile app, POS, kiosks, CRM, OMS, payments, loyalty, search and analytics.

KEY IMPACT

- ▶ ₹13 Cr+ direct cost savings delivered
- ▶ Platforms scaled to millions of users
- ▶ 800% growth in qualified lead generation
- ▶ Organic traffic scaled 100M → 400M

- ▶ Built and scaled a full-stack **omnichannel e-commerce** platform with product catalogue, **AI-powered** search, payments, order management and backend integrations.
- ▶ Designed in-store **POS** and kiosk systems enabling **70%** of business revenue, connecting offline retail journeys with backend systems.
- ▶ Rolled out **WhatsApp** invoicing, chatbot support, conversational order flows and **AI-assisted** customer engagement journeys.
- ▶ Deployed **AI-powered** personalisation, recommendation engine, **predictive analytics** and customer segmentation to improve discovery and conversion.
- ▶ Introduced a **VR-based** kitchen design experience to enhance customer engagement in home-improvement journeys.
- ▶ Managed a ₹1.5 Cr digital programme budget with <10% variance while supporting expansion from 2 to 7 stores in 8 months, and cut IT operating cost by 60%.

Head of Product – Digital Transformation

Careers360

Jan 2016 – Sep 2022

Previously: Senior Product Manager, Product Manager, Product Analyst, Management Trainee

- ▶ Led **digital transformation** across B2B and B2C EdTech platforms — user acquisition, lead generation, learning products, content platforms and student engagement tools.
- ▶ Improved annual organic traffic from **100M** to **400M** through SEO-led product architecture, content platform improvement and analytics-led optimisation.
- ▶ Increased annual registrations from **1M** to **12M** through funnel improvement, product-led growth and personalisation.
- ▶ Expanded annual lead generation from **5M** to **10M** and built a B2B lead management platform that grew qualified leads by **800%**.
- ▶ Built and scaled flagship **AI/ML-powered** tools including **College Predictor**, **Rank Predictor**, Career Guidance apps and a **QnA platform** reaching **1M+** active users and **18M+** monthly sessions.
- ▶ Developed an **AI/ML-powered** personalised study planner and recommendation engine, and an AI-enabled learning journey spanning video lectures, tests, faculty chat and custom timetables.
- ▶ Launched ad management systems to improve client campaign delivery, inventory usage and revenue operations; mentored product and design teams on quick wins and long-term growth programmes.
